О перевоплощениях воспитанника Машинного училища Флота Григора Чочева

(Abstract)

Based on newly discovered archival documents, the paper reveals the biography of Gregory Chochev who was a graduate of the Engineering School at His Majesty's Navy in Varna and prominent communist functionary. It was found that after his emigration to the USSR in 1923, Chochev accepted family name Bilyarov, became an intelligence officer from the Soviet intelligence personnel and that he was repressed in 1938. The data records are published for the first time.
